

Non-temporally Evolved Supervised Target

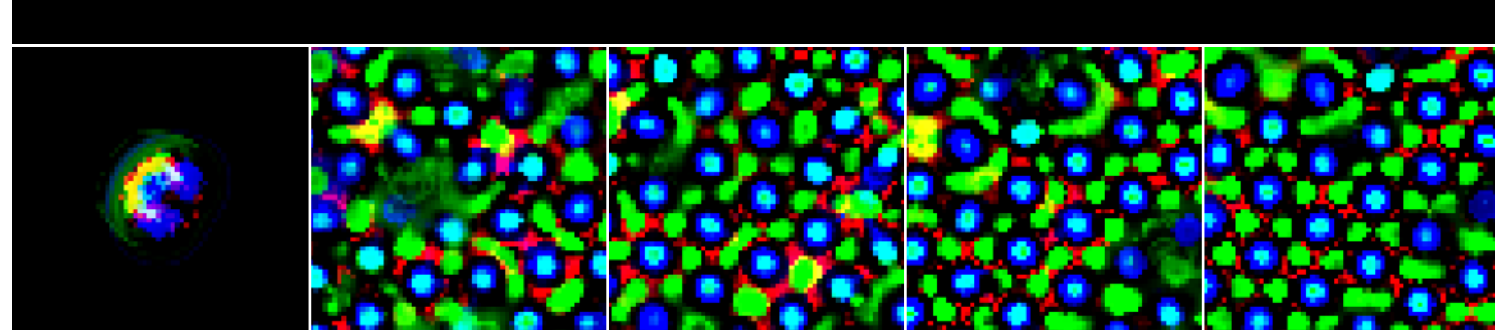

"the big bang"

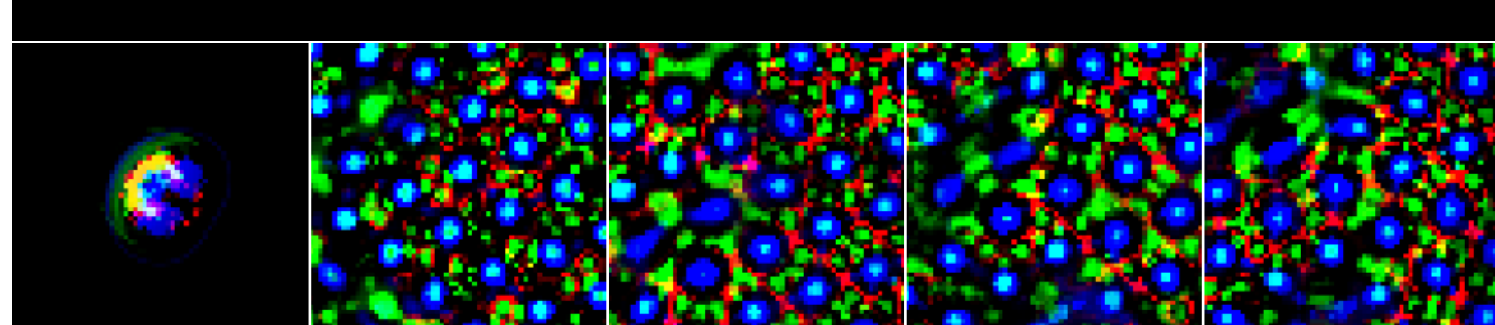

"Evolve crystalline networks"

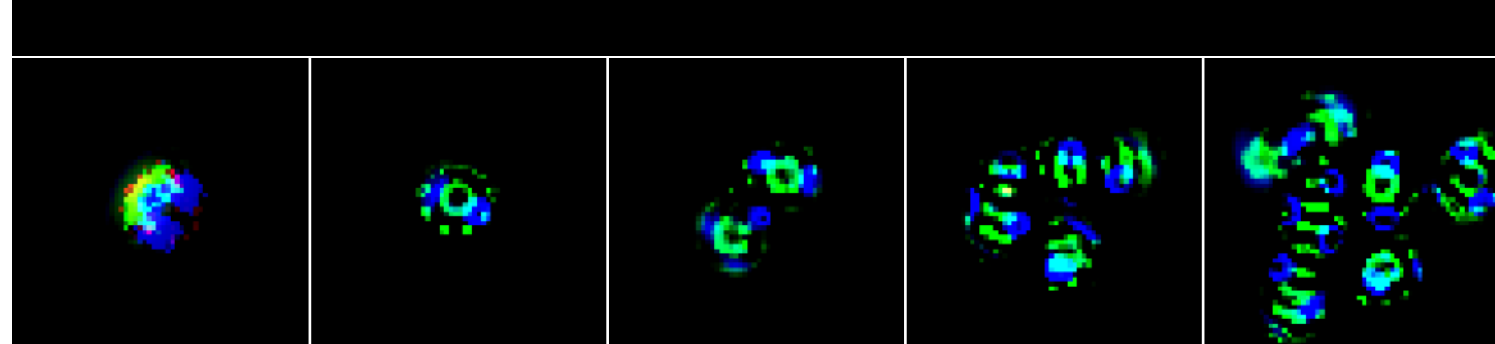

"Simulate bioluminescent symbiotic crystalline structures"

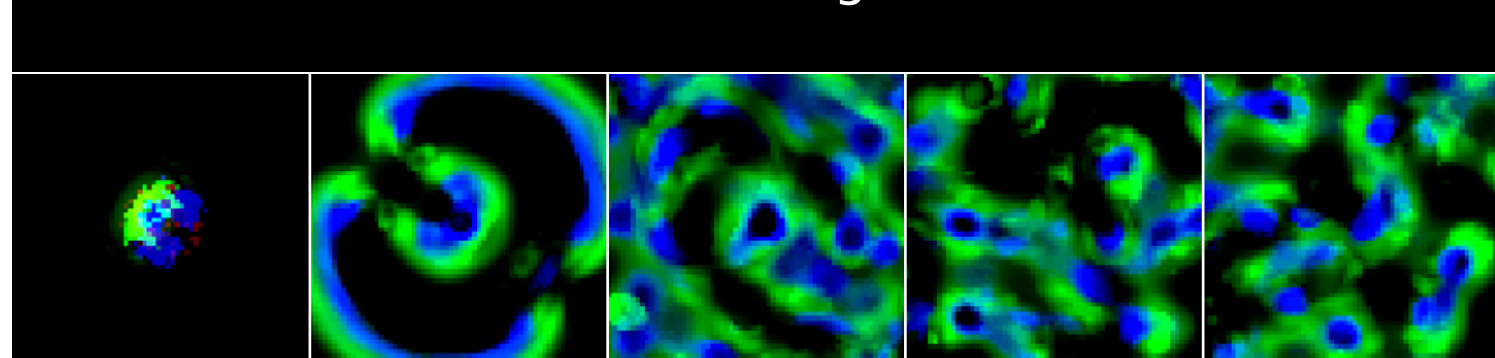

"Simulate bioluminescent selfassembling crystalline networks with emergent neural pathways"

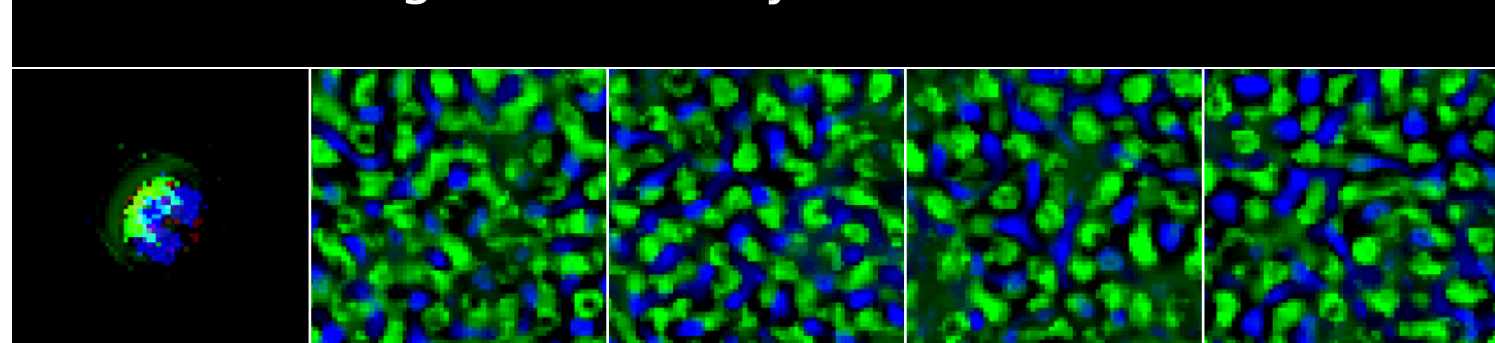

"Simulate bioluminescent selfassembling mineralbased organisms with distributed sensory processing and rudimentary locomotion"

"Simulate mineralbased organisms with internal fluid dynamics reactive pigmentation and emergent swarm intelligence"

"Simulate mineralbased organisms with bioluminescent internal fluid dynamics crystalline shell growth and symbiotic mineral"

"Simulate mineralbased organisms with crystalline shell fracturing and fluid driven mineral deposition"
